Date: April 11, 2012

Free TDAP Vaccine Available for a Limited Time

Because of an increase in Pertussis (whooping cough) across North Carolina, state health officials are encouraging citizens to get a Tdap (Tetanus, Diphtheria, and Pertussis) vaccine.

For a limited time, the North Carolina Immunization Program is offering free Tdap vaccines.

This free Tdap vaccine will be available until supplies are depleted. The Tdap vaccine may be given to anyone seven years and older (including adults) regardless of their insurance status.

To receive a free vaccine, make any appointment with your primary care provider (you may be charged an administration fee) or call the Moore County Health Department at 947-3300.

For more information about Pertussis, please visit the Pertussis page at the CDC's website:

<http://www.cdc.gov/Features/Pertussis/>.
